RESEARCH INTERESTS

High-Dimensional Econometrics: Orthogonal Learning, Nonparametric Estimation, Post-Selection Inference, High-Dimensional Weak Identification, Efficient Inference

Causal Inference: Instrumental Variables, Identification with Multiple Instruments, Generalized Monotonicity Conditions

EDUCATION

University of California, Los Angeles

Ph.D., Economics, 2018 to present

M.A., Economics, 2019

Carnegie Mellon University

B.S., Economics and Mathematical Sciences, 2018

JOB MARKET PAPER

- [1] Navjeevan, M. (2023). "An Identification and Dimensionality Robust Test for Instrumental Variables Models"

Abstract. I propose a new identification robust test for the structural parameter in a heteroskedastic linear instrumental variables model. The test is based on a jackknife version of the K-statistic and has asymptotically correct size so long as an auxiliary parameter can be consistently estimated. This is possible under approximate sparsity even when the number of instruments is potentially much larger than the sample size. The limiting chi-squared distribution of the test statistic is derived using a novel direct gaussian approximation technique; my analysis does not require the conditions of any particular central limit theorem to hold. To improve power against certain alternatives, I propose a simple combination with the sup-score statistic of Belloni et al (2012) based on a thresholding rule.

AWARDS AND FELLOWSHIPS

Honors Pass, Econometrics Qualifying Exam, Department of Economics, UCLA, 2019

Honors Pass, Microeconomics Qualifying Exam, Department of Economics, UCLA, 2019

TEACHING EXPERIENCE

Instructor at UCLA

Econ 103 (Introduction to Econometrics), B.A in Economics. Summer 2021- 2023.

Teaching Assistant at UCLA

Econ 41 (Statistics for Economists), B.A. in Economics.

Econ 103 (Introduction to Econometrics), B.A. in Economics.

Econ 203A (Introduction to Econometrics I), Ph.D in Economics.

Econ 412 (Fundamentals of Big Data), M.QE. in Economics

Econ 425 (Machine Learning I), M.QE. in Economics

SOFTWARE

R, Python (advanced); HTML, Stata (intermediate); Scientific Text Editors (L^AT_EX, Beamer)

LAST UPDATE

October, 2023
